PROFESSIONAL EXPERIENCE

Nomura | *Equity swaps and financing Grad Sales Trader*

Feb – Apr 2025

- Developed PrimeFlow Analyzer, a Python-based analytics tool tracking equities execution data at the industry, client, and stock levels, providing actionable insights that enhanced trader decision-making and client servicing
- Implemented an AI-powered trading support tool that transforms incoming lender messages into ready-to-book trade templates, significantly reducing booking time and minimizing operational errors for traders
- Automated key trading desk workflows using Python, streamlining repetitive tasks and increasing overall desk efficiency
- Designed a Type 9 hedge fund client database, enabling the Sales team to target and engage potential clients proactively
- Conducted service provider analysis for hedge funds, designing automated rating matrix for PMS, OMS, Fund Admin etc
- Collaborated with the Sales team to engage hedge fund clients, delivering strategic insights and analytical support for Hedge Fund Consulting initiatives

Hong Kong Exchanges and Clearing, Hong Kong | *Finance - Data Analytics & Automation / Markets*

Jun – Aug 2024

- Generated 10 Tableau dashboards on cash markets, derivatives markets, and revenue analysis to report results to the senior management; identified and reported important insights with rationale on noteworthy business performance
- Attended and led the daily morning global markets meetings with 210+ attendees across Singapore, China, and Hong Kong
- Formulated a project proposal, aided the manager in financial estimation and devised the project plan, including risks & applications to drive negotiations and secure funding for a high-profile data analytics project worth HKD 2.3 million
- Developed automative workflows to improve the efficiency of daily business operations using Power Automate
- Drafted a research paper for the Cash Equity development team on improving market liquidity via board lots, minimum spreads and slashing transaction costs by benchmarking metrics against global stock exchanges

ECONOS, Bucarest | *Carbon Consultant Intern*

May – Aug 2022

- Assisted in fundraising initiatives for the startup through competitions, event galas, and VC pitching by creating presentation decks and teaser videos for investor pitching and capital-raising
- Led analysis of carbon footprints for 10+ SME clients, including e-commerce, financial institutions, and other sectors, by utilising SCOP 1, 2, and 3 categories (SBTI base) and incorporating EEIO database with OECD data
- Aided in building final reports for clients, including data visualisation & interpretation, benchmarking, and building infographics

KPMG, Hong Kong | *Transaction Services & Data Analytics Intern*

Dec 2021 – Jan 2022

- Undertook two rotations within the Deals Advisory team; facilitated a large-scale change management project to transition the analytics software for 1000+ employees from Tableau to PowerBI
- Liaised with the management team to organise training sessions for employees, plus created presentation decks and tutorials to ensure a smooth transition to the new platform
- Designed PowerBI dashboards to evaluate sales and revenue performance data as well as present data visualisation on key trends
